

RUTH MUNIZ JOINS ONSTREAM AS DIRECTOR OF U.S. ANALYSIS AND COMPLIANCE

PRINCETON JUNCTION, N.J. – MAY, 2021 – MISTRAS Group is pleased to announce that Ruth Muniz has joined Onstream Pipeline Inspection, member of MISTRAS, as Director of U.S. Analysis and Compliance.

Ruth brings over 20 years of data analysis experience in the inline inspection (ILI) industry to Onstream, having worked in Canada, USA, and Mexico. Prior to joining Onstream, Ruth served as Global Technical Support for Data Analysis and Integrity at Baker Hughes, a global pipeline services company. Within Baker Hughes, she gained data analysis experience in a variety of roles, including Data Analyst, Client Lead, Regional Manager, and Global Data Analysis Manager. Ruth's responsibilities in these roles focused on team building, customer service, analysis process, and quality assurance as well as collaborating with various business divisions to meet established targets.

Ruth holds a Master of Management Science (MMSc) from the University of Waterloo in Canada and a Bachelor's of Science (BSc) in Engineering from Instituto de Ciencias y Estudios Superiores de Tamaulipas (ICEST) in Mexico. She is bilingual, with proficiency in English and Spanish.

"Onstream's Analysis team is responsible for ensuring that the data we deliver to customers is not only accurate but effectively tailored to solve their needs," said Dean Jenson. "Ruth will play a key role in leading our analysis team to continued success."

Onstream Pipeline Inspection is a premier provider of both free swimming and tethered inline inspection services, supporting North American pipeline operators. Our high-resolution technology is coupled with advanced data analysis to allow our clients to make accurate decisions to manage their pipeline assets.
